Itumeleng Eric Mokgweetsi

Full-Stack Developer | Aspiring Data Engineer
Gaborone, Botswana
mokgweetsiit@gmail.com | +267 74408234
Portfolio: Home | Developer Portfolio

PROFILE

Final-year BSc Computer Science student with hands-on experience in full-stack web development and growing expertise in data engineering. Skilled in building real-world applications that solve workflow and business problems. Strong focus on developing scalable systems, efficient data handling, and user-friendly interfaces. Passionate about transitioning into data engineering and working with data-driven systems.

TECHNICAL SKILLS

Frontend:
React, JavaScript, HTML, CSS, Tailwind

Backend:
Flask, Node.js, C# (ASP.NET Razor), PHP (basic)

Database & Data:
SQLite, SQL, ETL Pipelines, dbt, Apache Airflow

Tools & Technologies:
Docker, Postman, Vite

PROJECTS

Task Manager Application

Technologies: C#, ASP.NET Razor, JavaScript, HTML, CSS

- Developed a task management system for tracking and managing user tasks
- Implemented structured UI using Razor Views for dynamic rendering

- Designed features for task organization and performance tracking
- Focused on improving workflow efficiency and usability

Fintech Application

Technologies: React, Node.js, Flask, Tailwind, Vite

- Built a modern financial web application with responsive UI
- Integrated frontend and backend systems for seamless data flow
- Focused on performance, clean UI design, and scalability
- Applied full-stack development practices in a real-world scenario

---

Cybersecurity Application

Technologies: React, Node.js, Flask, CSS

- Developed a web-based cybersecurity-focused system
- Implemented secure data handling and system interaction
- Designed intuitive interfaces for monitoring and managing data
- Emphasized system reliability and structured backend logic

DATA ENGINEERING EXPERIENCE

- Designed and worked with **ETL pipelines** for data processing
- Used **Apache Airflow** for workflow orchestration
- Applied **dbt** for data transformation and modeling
- Worked with **Docker** for containerization and environment consistency
- Gained experience in structuring and managing data for scalable systems

---

EDUCATION

BSc (Hons) Applied Business Computing
Final Year

- Focus: Software Engineering, Distributed Systems, Web Systems
- Applied academic knowledge to real-world development projects

EXPERIENCE

Freelance Web Developer

- Built dashboards and web-based systems for small clients
- Translated client requirements into functional applications
- Delivered solutions focused on usability and efficiency

ADDITIONAL INFORMATION

- Strong problem-solving and analytical skills
- Ability to quickly learn and adapt to new technologies
- Interested in backend systems, data engineering, and scalable architectures
